Hi Capt. Gossard,

I hope this message finds you well. Your feedback as an early adopter of Draft One has been invaluable in our efforts to save officers time in the field. Your agency's understanding of AI's capabilities and limitations has significantly contributed to our progress.

Our team is now in the early stages of exploring new opportunities similar to Draft One. If you're interested, we would love to speak with a detective or investigative command staff member at your agency about the use of field interviews and recorded audio in investigations. If you could assist us in connecting with contacts who may be willing to participate, we would greatly appreciate it!

Thank you for your time and support.

Best,

Noah
