Subject: FLOCK Integration with Axon Evidence.com

We have successfully integrated our FLOCK LPR cameras to Axon's EVIDENCE.COM software. This allows for any search results to be saved into the EVIDENCE.COM as part of your case or investigation. Here's a run down on how to use it:

- Log into the FLOCK LPR website as normal
- Run your search as normal
- When you get results look for the (3) dots in the lower right of that result
- Click on those 3 dots and pull down to "ADD EVIDENCE"
- A pop up screen will appear
- For the User pull it down or enter your email address
- Fill in the Title (i.e. "Possible Suspect Vehicle")
- Fill in the Case Number
- If you have multiple results you are uploading, it's a good idea to fill out the ID section (i.e. Result #2)
- When you log back into EVIDENCE.COM then you will see your evidence there. It fills in all the details of the LPR location/time etc in the notes.

Please let me know if you have any questions. If you decide to run a test, please list that in the search reason and also in the Case ID as well.
