Hi Capt. Gossard,

The deployment of the configurable header and footer are on track for today. Although it was called out in the Release Notes, I wanted to remind you that by default, **the footer will be on by default (with the original acknowledgement language)**. We made this decision in the spirit of transparency for when Draft One was used for a report. You can easily turn this off by going to Ecom \ Admin \ Draft One Settings (once the update is deployed).

Draft Header

Customizable header to be added to the beginning of every draft.

Draft Footer

Customizable footer to be added to the end of every draft.

Default footer

"I acknowledge this report was generated using Draft One by Axon. I further acknowledge that I have reviewed the report in detail, made any necessary corrections, and confirmed the accuracy of my recollection of the reported events. If needed, I am willing to testify to the accuracy of this report."

Custom footer

Type your custom footer here

Lmk if you have any questions!

Best,

Noah
